RockTenn's Aurora, IL mill earns Chain of Custody Certification from Forest Stewardship Council

Continuing with its long standing commitment to environmental responsibility, RockTenn announces that its Specialty Paperboard Products mill in Aurora, IL has received Forest Stewardship Council (FSC) chain of custody certification. This certification provides third-party validation of the mill's sustainable fiber sourcing practices. "For decades, the Aurora mill has been an environmentally responsible manufacturer, producing products made from 100% recycled paperboard. In addition to our regular Red Label® grades, we also produce a Red Label® product made from 100% post-consumer recycled content," said Dick Steed, executive vice president, Specialty Paperboard Products division. "FSC certification gives our customers assurance that the products we supply meet stringent environmental standards. We will continue to do what is right for our customers, as well as the environment." www.rocktenn.com

Systech and Wolke Collaborate to Address Pharmaceutical Packaging Requirements

Systech International, innovator of Packaging Execution Systems (PES) for the pharmaceutical industry, today announced their partnership with Wolke Inks & Printers. This partnership is intended to address the needs of leading pharmaceutical companies to more tightly integrate processes critical to successful coding and serialization. Diverse coding requirements and serialization projects are driving pharmaceutical manufacturers to place more distinct data on product packages. As these companies look to replicate coding and serialization deployments across multiple lines and locations around the world, accurate, consistent and high quality marking on individual packages at production speeds becomes increasingly critical to their success. The partnership of Systech, a leading provider of vision inspection and serialization solutions and Wolke Inks and Printers, a recognized leader in maintenance free inkjet printing, is intended to not only address the current requirements of the industry but will also lead to new functionality incorporated into their productized solutions. www.systech-tips.com www.wolke.com

Clearwater Paper Selects Thomas A. Colgrove as Vice President of Pulp and Paperboard

Clearwater Paper Corporation announced today that Thomas A. Colgrove, 57, has accepted an offer to serve as vice president for the company's pulp and paperboard division. Mr. Colgrove is replacing Harry Seamans who retired from the company on April 30, 2009. Mr. Colgrove most recently was senior director, family care products, for Kimberly-Clark Corporation in Neenah, Wisconsin, where he was responsible for seven manufacturing facilities with 4,200 employees. Previous to that position, his 25 years of tenure with the company included management of numerous facilities and product lines. He also served as vice president of manufacturing for Central Paper Company in Menasha, Wisconsin, and held management positions with Procter and Gamble Corporation. Mr. Colgrove earned a Bachelor of Science in civil engineering from Lafayette College in Easton, Pennsylvania, and an MBA from the University of Chicago. Mr. Colgrove will be based at Clearwater Paper's Spokane headquarters. www.clearwaterpaper.com

Matrox Graphics and Milestone Systems Announce Enhanced Security Surveillance Solutions at IFSEC 2009

Matrox Graphics Inc., a manufacturer of specialized graphics solutions, announced a partnership with Milestone Systems to provide enhanced surveillance solution performance to the security market. Matrox and Milestone will be launching this collaboration through an integration of the Milestone XProtect(tm) Smart Client with the Matrox VDA-1164 Video Decoding Accelerator for surveillance systems and operator stations in large-scale IP security networks. The Matrox VDA-1164 brings

hardware-accelerated IP video decoding capabilities to workstations running the Milestone XProtect Smart Client. By offloading the Central Processing Unit (CPU) of the video decoding burden, VDA-1164 enables optimal system responsiveness through its ability to simultaneously decode multiple streaming video formats from a variety of sources-at full frame rate. With VDA-1164 processing all the graphics and video data, the result is real-time decoding and display of up to 16 D1 streams of smooth, high-quality video. www.matrox.com/graphics www.milestonesys.com

Schmalz Inc. moves into newly purchased 20,000sf headquarters

Schmalz Inc., the global specialist for vacuum technology, takes one more step into a bright future and moves into its newly purchased 20,000sf headquarters in Raleigh, NC. Schmalz Inc. was founded in 1999 as subsidiary of the Germany based parent company. After ten years of successful business and constant growth, the company today stands for high quality and innovative Vacuum Automation Components and Gripping Systems as well as Vacuum Handling and Clamping Systems. Amid the hardest economic crisis of the last decades, Schmalz shows financial strength and confidence in its future by making the biggest investment in its history. The new company home, located in North-Raleigh, is a two-story building with 20,000sf of office and warehouse space. Schmalz Inc. will be operational in the new building from the 18th of May on. www.schmalz.com
