

Systech and Marchesini Enable Pharmaceutical Manufacturers to Smoothly Execute Deployment Projects

Integrated vision inspection and labeling solutions now established on over seventy-five packaging lines throughout Europe

Brussels, Belgium May 12, 2009 - Systech International, innovator of Packaging Execution Systems (PES) and Marchesini Group, leader in labeling technology, announced today that their integrated offering has been established on over seventy-five packaging lines throughout Europe.

Systech and Marchesini help pharmaceutical packagers eliminate the integration issues and engineering challenges faced when deploying machine-level solutions from multiple vendors. The relationship the two companies have developed and the work they have done to integrate vision inspection with printing and labeling processes enables smooth execution of multi-site deployments.

“Both Systech and Marchesini understand the diverse requirements facing pharmaceutical manufacturers worldwide,” said Frederic Menardo, General Manager of Systech Europe. “Our demonstrated working relationship enables customers to meet their business objectives in an increasingly demanding packaging environment.”

During Achema 2009, Systech will demonstrate its vision inspection solution integrated with Marchesini’s BL400 labeler platform. Visitors to the show can see a live demonstration of the complete solution at Marchesini’s booth, located at **Hall 3.1 – Stand O32-Q41**.

“We have a long working history with Systech and are committed to delivering the integrated solutions that our customers require,” said Pietro Tomasi, Commercial Director Marchesini

Group S.p.A. “This is the primary reason customers look to our products and why we have been so successful in deploying our solutions worldwide.”

About Systech International

Systech International is an innovator of packaging execution systems (PES) for the pharmaceutical industry. Systech offers a suite of productized software that quickly gives manufacturers complete control over packaging processes along with the actionable intelligence required to continuously improve performance. Systech implements vision, line management, performance metric and serialization solutions for companies around the world to secure the supply chain and to optimize packing efficiencies. By partnering with Systech, companies can leverage a scalable, repeatable architecture, to consistently deliver significant improvements at the machine, line and plant levels. About Marchesini Group S.p.A.

With over 9.000 machines produced, more than 2.000 lines installed around the world, Marchesini Group is the leading supplier of stand-alone machines and complete lines in the pharmaceutical and cosmetic packaging industries. Boasting 14 production divisions, 7 acquired businesses and a partner company, the Group is able to offer “turnkey” lines of products for the primary and secondary packaging market, supplying some of the most cutting edge solutions from a technological point of view. Massimo Marchesini had the idea of setting up the company in 1974 and Marchesini Group currently employs 1.000 staff members, spread over the 11 divisions on the reference markets (Great Britain, United States of America, Scandinavia, Switzerland, Germany, France, Benelux, Spain, India, Middle East and Far East) and avails of a network of 20 agencies that have developed together with the company to enhance its daily commitments towards customer satisfaction. The outstanding international vocation of the group, which generates 85% of its turnover from exports, is counterbalanced by totally “made in Italy” production.
