**SYSTECH International To Present On Packaging Technologies In Anti-Counterfeiting And Product Traceability Initiatives At INTERPHEX 2006™**

**New York, New York, March 21, 2006** – SYSTECH International, the leading provider of Packaging Performance Management solutions for manufacturing operations, today announced it was selected to present at INTERPHEX 2006™ Conference and Exhibition in New York City on March 21<sup>st</sup>.

Drawing thousands of pharmaceutical industry professionals, INTERPHEX is the preeminent event to network, see new products, increase technical knowledge, and learn about new trends surrounding pharmaceutical manufacturing.

“We are delighted to be participating at the Conference,” said Mark Kushner, SYSTECH International’s Vice President of Corporate Development. “Product traceability delivers great business value by enhancing patient safety and consumer confidence, as well as combating product liability and brand erosion issues. The pharmaceutical industry is proactively researching blended technologies to ensure product authentication and pedigree. Successful adoption of track and trace technologies will rely heavily on item-level serialization on the packaging line.”

In addition to presenting to the Conference, SYSTECH will showcase its Mass Product Serialization, Packaging Line Automation, and Machine Vision Inspection solutions in the Exhibition Hall.
