## **SYSTECH International Launches New Web Site**

### **Dynamic Look Showcases Packaging Performance Management Solutions**

**Cranbury, New Jersey, July 1, 2005** – SYSTECH International, the leading provider of Packaging Performance Management solutions for manufacturing operations, today unveiled its new web site. Major improvements have been implemented to enhance the user experience.

Visitors to the site are provided with a wealth of information, including product demonstrations and specifications, technical documentation, FAQs, and troubleshooting. Easy to navigate, the new web site will serve as the preeminent source for the machine vision inspection and packaging line automation community.

“A great deal of energy was devoted to building a site that better serves our visitors and user community,” said SYSTECH’s Director of Marketing Joseph Costa. “Its new features and layout helps promote easy access to product information. You can expect further enhancements in the upcoming months.”

“Throughout the year, we will continue to demonstrate what sets us apart from our competition,” added SYSTECH’s CEO Robert DeJean. “The new web site, and all customer facing initiatives, is part of our strategic focus in elevating the SYSTECH brand. As the solution provider of choice by top tier pharmaceutical organizations, we will continue to deliver world-class support that customers expect of us.”

### **About SYSTECH International**

SYSTECH International is the leading provider of Packaging Performance Management solutions for manufacturing operations. Founded in 1985, its TIPS® family of solutions was developed specifically to meet the needs of inspection, control, and information management in packaging environments. A recognized market leader in the Pharmaceutical, Medical Device, Biotechnology, and Healthcare industries, SYSTECH is rapidly gaining market leadership in the Food and Beverage industry. While focused on highly regulated industries, the company also services other packaging and converting industries including Printing, Cosmetics, Consumer Products, Automotive, and Electronics. Visit SYSTECH online at [www.systech-tips.com](http://www.systech-tips.com).
